**There may always be a lower acquisition price especially with Internet hearing aid companies and large Big Box chain stores. The consumer must consider the following:**

- Hearing aids cannot be fitted with a simple hearing test. ▪ Hearing aid effectiveness is primarily in the hands of the skilled audiologist or hearing aid dispenser. ▪ The most expensive hearing aids are the ones that you won't wear! ▪ Customer service before and after the hearing aid purchase is essential for patient satisfaction. ▪ All patients have unique hearing needs. Dr Martinetti will listen to what hearing parameters matter to you.
